## **1 Abstract**

This document is the Software User Manual for the mobile application Travel Diaries and is made according to the software engineering standard .The Software User Manual instructs how to install and use the Travel Diaries application from using its basic functionalities to the more complex ones.This document also contains a general overview of the application and its functionalities. This project is the result of the Software Engineering Project course at our Institute IIIT Vadodara.

## **2 Objective**

The purpose of this Software User Manual is to assist the user in installing and using the travel diaries application.

## **3 Installing the application**

Our project travel diaries is a mobile application and its installation is very easy and user friendly.The most mandatory and basic requirement to be followed by the user inorder to access our application is to update his/her android phone upto 4.4 kitkat version of Android.After this the user can download our application from the play store. This .apk file then needs to be installed in the phone by simply clicking on the install button. After installing the application it can be run on the mobile phone.
